TENTH ANNUAL REPORT.

I beg to lay before you the Tenth Annual Report of the Toronto Public Library. The termination of the tenth year seems an appropriate occasion on which to review the progress made since the opening of the institution.

In 1883 the Library and Reading-rooms were commenced in what at that time seemed large and commodious quarters, but the continuously increasing number of readers has forced us, step by step to add to our accomodation and to part with all our tenants, until the Circulating and Reference Libraries and Reading-rooms now occupy the entire building.

The issue of books has kept pace with the general improvement as will be seen by the following comparison :

1884,	179,506	1889,	310,904
1885,	277,931	1890,	387,480
1886,	270,095	1891,	427,337
1887,	275,066	1892,	431,256
1888,	279,160	1893,	442,470

The number for 1893 is composed of 268,896 volumes taken out for home reading and 21,470 read in the rooms.

The alterations which were being carried on during the past winter prevented free access to the books in the Reference Library, and it was not until the completion of this portion of the building in May last that any considerable number of readers could be accommodated, and further in order to extend the scope and usefulness of the Library, the experiment has been tried of placing within reach of the reader all the principal encyclopædias, dictionaries, etc., the use of which no record could be kept. Consequently the number of volumes read show a decrease in this department. The success, however, of the experiment, fully warrants any departure we have made in this direction.

The long hours during which the Library requires to be kept open necessitates the service of a double staff, and therefore the expense for salaries forms the largest item in the annual expenditure. This has been for the past ten years :

1884.	\$9,570.51	1889.	\$11,017.17
1885.	8,274.21	1890.	11,807.36
1886.	8,139.42	1891.	11,951.94
1887.	8,771.33	1892.	11,759.44
1888.	8,988.02	1893.	11,868.24

The increase in 1889 was caused by the establishment of two of the Branch Libraries at the close of 1888.

In this connection it is interesting to make comparisons with similar institutions in other cities on this continent, and I have extracted from the Los Angeles report for 1893 a comparative table, showing the relative position of this Library.

	Home Use.	No. of Vols.	Pop. 1890.	Salaries.
Chicago	988 601	189 350	1,099 850	\$73,787.27
Boston	726 052	576 237	418,177	92,681.79
Baltimore	412,654	122 773	431,439	19,714.13
Cleveland	319 190	79 610	261,353	13,355.12
Jersey City	315,096	32 110	163,003	11,290.91
Minneapolis	333 612	61 992	161 738	23,870.00
Detroit	315,888	115 661	205 876	16,138.52
Newark	272,317	35,937	181 830	14,586.67
Los Angeles	267 654	31,332	50,335	10,979.51
San Francisco	139 630	71,200	298 997	18,623.00
Toronto	421 000	84,987	181,222	11,868.24

Most of these libraries do not include the wages of janitor, engineer, pages, and extra assistance, while in the case of Toronto all are comprised under the one heading. It is very gratifying to know that our expense account for salaries is lower than that of any city of this continent in proportion to its population or its circulation and number of books on its shelves.

I think it is proper also to mention that this Board did not wait until January 1894 to economise. In March 1893, they prepared a scheme by which two of the Branch Libraries could be closed and a saving effected of \$4,000 per annum. I regret, however, that the action of the City Council in threatening to cut off part of our grant if this scheme were carried out, prevented its adoption. In my opinion it was an uncalled for interference with the rights and duties of the Board when endeavoring to conduct its affairs on business principles.

The completion and opening of the Reference Department marks

an era in the history of the Library. The formation of a Library of Reference formed one of the principal features of the scheme laid before the citizens in 1883 and its value has been dwelt upon by all who have written or spoken on the subject. It now contains about 39,808 volumes, which have been carefully selected for the purpose. The card catalogue is complete to date and every convenience provided for readers. Judging from the number of those who already make use of it, its success is assured.

During the last session of the Provincial Parliament, we joined the Library Board of the City of Hamilton in making application for permission to have janitors or caretakers appointed special constables. In accordance with our joint request an Act was passed, 56 Vict. 36 chap., conferring this power.

The Branch Libraries have received the careful attention of the Building Committee. During the past year all have been repainted and papered, furniture has been renovated and everything done to make them bright and clean.

In July last the Chief Librarian attended the meetings of the International Library Congress and of the American Library Association at Chicago, and he reports that both were eminently successful. Instructive and interesting papers by the most prominent European and American Librarians were read and discussed, and the most recent devices for assisting the reader and saving labor were exhibited. Such meetings are not only profitable to the Librarian, but keep our Library in touch with the most progressive libraries on the continent.

During the winter season a considerable number of unemployed persons, glad to obtain shelter and rest, frequent the reading rooms, occupy the halls and prevent legitimate readers from obtaining that free and ready access to the periodicals which they should have. To meet this and to afford a resting place for this class it has been resolved to open for the winter months a special room, 30 x 90, in the basement, for their accomodation ; chairs will be provided and reading matter freely distributed. Your Building Committee have in hand the fitting-up of the room for this purpose.

WILLIAM MARA,
